

Pelleve Treatment

Pre and Post treatment Instructions

Pre-Treatment Instructions:

1. Please let your doctor know if you have a history of cold sores. Patients with a history of cold sores will be prescribed medication prior to treatment to prevent a flare.
2. Please be aware that all makeup will need to be removed prior to treatment. You may reapply after treatment.
3. Daily use of a sunscreen, SPF 30+ with zinc oxide, is recommended before and after treatment.
4. Please let your doctor know if any of the following apply:
 - a. Pregnancy
 - b. History of pacemaker or defibrillator

Post-Treatment Instructions:

1. You can immediately apply sunscreen and makeup.
2. Please be aware that during the procedure that some of the gel being used will get in your hairline but will be removed once treatment is finished.
3. Daily use of a sunscreen, SPF 30+ with zinc oxide, is recommended before and after treatment.
